Dish radio has been a wonderful addition to my day. I drive alot and find it so helpful not to lose the station so frequently. It also has been a replacement for dish TV which I cannot afford at this time; I cannot get local TV because of the hills surrounding my home. I enjoy the variety and the selection of stations, and the sound quality is also great. I urge you to support satellite radio, and reject NAB's petition 04-160. Thank you. Canice Paliotta
